

**Dear Hiring Team,**

I hope you are doing well. I am writing to express my interest in joining your team as a developer. I have experience building and maintaining full-stack web applications, working across both front-end and back-end systems to deliver scalable and user-focused solutions.

In my recent projects, I have developed responsive interfaces, designed and integrated APIs, and worked on AI-powered features such as speech technologies and automated content processing. I enjoy solving practical problems, improving performance, and building clean, maintainable systems that support long-term growth.

As an early-career professional, I am motivated, adaptable, and committed to continuous learning. I value collaboration, constructive feedback, and taking ownership of my work. My goal is to contribute meaningfully to a team while continuing to grow both technically and professionally.

Thank you for your time and consideration. I would welcome the opportunity to discuss how I can contribute to your organization.

**Best regards,**

**Gaga Chituashvili**
